**Echo Location** curated by *Lisa C Soto*

a sonar mapping, a location of objects, people, across space.  
 in some sense a call, a response  
 one navigates, negotiates space, place, neighborhood, one's community.  
 what are the rituals, rhythms? where are the borders, the markers, fixed or  
 ephemeral?

Eastside International is pleased to present **Echo Location**, a group exhibition curated by **Lisa C Soto**. The exhibition features work by artists who participated in a series of talks at Soto's Inglewood studio entitled "Conversations By Artists For Artists", which began in November of 2015. The conversations were intended to build connectivity, cultivate empowerment, and provide an intimate space for the exchange of ideas, energies, and perspectives. In **Echo Location** the visions and voices of the twenty-three participating artists co-mingle again and offer an alternative mapping of LA's creative landscape.

**Featuring: Amitis Motevalli, Andy Moses, Cindy Rehm, Duane Paul, Glen Wilson, Isabelle Lutterodt, Jamaal Tolbert, John K. Chan, Kelly Berg, Kimberly Morris, Kysa Johnson, Kyungmi Shin, Lisa C Soto, Lisa Diane Wedgeworth, Lita Albuquerque, Martin Durazo, Michael Massenburg, Nery Gabriel Lemus, Raksha Parekh, Selwyn Hinds, Todd Gray, Virginia Broersma, Zeal Harris.**
